# Ultraformer MPT VS Ultraformer III

Ultraformer MPT is a new model of Ultraformer III, which has MP mode (Micro Pulse).

- MP mode (Micro Pulse technology) will help to generate a higher volume of new collagen for the skin.
- The ergonomic design of the Ultra booster Hand piece can reach all the curves of the face and body, giving more noticeable results.
- Reduce wrinkles, pores and improve skin condition.
- 2.5x Faster treatment time and results than Ultraformer III.
- Reduced treatment time and improved hand pieces mean a less painful and more comfortable treatment.
